

UBIQUITI ANTENA PARABOLICA 24DBI

CÓDIGO PAEZ	E.AF-2G24-S45
CÓDIGO CATÁLOGO	
PART NUMBER	AF-2G24-S45
MARCA COMERCIAL	Ubiquiti
FUNCIÓN PRINCIPAL	N/A
TIPOLOGÍA ESPECÍFICA	Antena
TIPOLOGÍA GENÉRICA	Antena Wireless

Descripción

2.3 - 2.7GHz, 24dBi, 200km/h, 650mm, Dual-Linear, 9.8kg

Compact Footprint for Deployment Flexibility The compact form factor allows the airFiber X Antennas to be used in various applications, from carrier backhauls between towers to PtP bridging between buildings. **Plug and Play Integration** The airFiber X Antennas are designed to integrate seamlessly with the airFiber X radios. **Advanced RF Isolation Design** The innovative industrial design improves RF isolation to significantly reduce interference and deliver superior gain for high-capacity, multipoint networks. **airFiber X Conversion Kit** The 5 GHz RocketDish to airFiber® Antenna Conversion Kit, model AF-5G-OMT-S45, converts the RocketDish RD-5G30 or RD-5G34 antenna for use with the airFiber AF-5X radio.

Ficha compacta

ESPECIFICACIONES **Tipología genérica:** Antena Wireless | **Tipología específica:** Antena | **Funcionalidad:** N/A
